Course Objectives

Describe the process for the CCM credential
Obtain knowledge in the essential knowledge areas for case management practice
Comprehend the basic concepts and resources for disability management and public/private benefit systems
Gain insight into any individual additional study needs

This course is designed to provide the practicing case manager with information to assist them in preparing for the CCM exam. It is also appropriate for those who are seeking a basic course in case management practice

Course Content

The content of the course is based on feedback from course attendees, after they have taken the CCM exam, as well as CCMC's list of content areas. The content is updated every 6 months, following the exam cycle and the feedback surveys. The resource manual for the course includes:

Material for the course
100+ sample exam questions
Resources for self-study
