/// Overview

This course is designed to provide the practicing case manager with information to assist them in preparing for the exam for the Certified Case Manager (CCM) credential. The course will commence with an overview of the CCM process and exam. It then follows the CCM guide for examination content, focusing on the domains of essential case management knowledge. It will provide intensives for focused review in three key areas: workers' compensation/disability management systems, public insurance and benefit programs, and federal resources/laws. The course will include some sample questions and an exercise in self-assessment to guide participants in developing a self-study module for any particular area requiring further study. A comprehensive course syllabus, 14.1 CEUs for RN and 14 CEUs SW's and lunch will be provided.
